WHAT IS THE PIRATES PRIZE PORTSBOOK?

The Pirates Prize Portsbook is a season-long, fake-currency betting system and league shop built directly into **FFLAOfficial.com**. Owners can wager on FFLA matchups, earn additional credits by winning bets, and spend those credits on league perks. It adds another layer of strategy, engagement, and fun to our league.

IMPORTANT

- No real money is involved.
- Credits have no cash value.
- Credits can be bought back in with real money if you get to under 100
- Credits cannot be withdrawn or exchanged for real money.
- Nothing in the shop can change fantasy points or the result of a completed game.

THE GOAL

Make smart bets, grow your bankroll, and decide when to spend your winnings on league perks that can give your franchise an edge. The best rewards require sportsbook success, so actual betting participation matters.

SPORTSBOOK MARKETS

Each FFLA matchup has three main betting markets set by the league's bookmaker:

MONEYLINE (ML)

Pick which FFLA team will win the matchup.

SPREAD

Bet on a team to cover a posted point spread.

OVER / UNDER (O/U)

Bet whether the two teams combine for more or fewer fantasy points than the posted total.

WHEN BETTING CLOSES

Each FFLA matchup has its own betting deadline.

Betting remains open until the first NFL player in either team's starting lineup begins his real NFL game.

- Once a matchup locks, no new bets may be placed.
- Existing bets cannot be changed or canceled.
- The moment that player's game kicks off, all betting markets for that matchup are closed.

THE FFLA SHOP

Use your winnings to buy league perks and give your franchise an edge. Starter Credits are worth 50% in the shop, so winning bets increases your buying power.
